THE REDCLIFF REVIEW

THURSDAY, AUG. 11, 1938

Number 9

## Town Council Regular Meeting Monday Evening

Was Very Little Business At Tuesday Meeting

Town Council met in regular session last Monday evening.

All councillors were present and Councillor Rindahl opened as chairman. Mayor Sangster was not present as he had other meeting. The Mayor was present later and took the chair.

There was very little business at the meeting and was a short session.

Relief for local unemployed was outlined by the local government and was approved by council.

Relief for July was approved. Account of bills were passed by the finance committee and motion was passed for payment.

The sanitation committee was requested to make arrangements for cleaning up town outhouses.

Town School Board requested for \$250.00 for school expenses at present. The request was passed.

Request for the purchase of town lots by C. M. Benjamin and S. M. Kaldstad were passed after third reading.

Arrangements were made for applying the town property between Second and Third Sts. and just north of School property to appoint park lot and new swimming pool for the Town.

## Worst Harvest Were In Alberta

Estimated Approximately 500,000 Acres Wheat Destroyed

During the current crop season Alberta has fully maintained its reputation as the worst province for hail in the entire world. Several devastating hailstorms have occurred in widely separated areas, and approximately 500,000 acres of growing wheat have been destroyed this season. The worst damage has been sustained by a section of land lying between Old and Innisfail on the west and Drumheller on the east. Some crops in that region have been hail-swept three times during the summer.

Cutting is general in the Harvest Vale district.

Mr. Fulton and several of his family who were holidaying at Waterloo Lakes last week have returned home.

Mrs. Art Tekens of Rosedale is visiting here at the home of her parents, Mr. and Mrs. John Kitchen.

## Donations For The Redcliff Memorial

Local Factories Donate Materials For The Building

The following is a list of those who have donated funds towards the building of a Redcliff War Memorial: Canadian Legion \$25.00 Mr. Horace Ireland \$5.00

Other donations ranging from 5 cents to \$2.00 were made by Mrs. W. King, Lieut. W. King, W. H. Dacre, W. Campeau Alex. Maskell, Mrs. Hicks, City George Sam Day, C. T. Hall, E. T. Cooke, James Dutton, Mrs. W. Lawman, Mrs. H. Pinder, Mrs. A. Peterson, Mrs. C. Evans, Mrs. C. Johnson, Mrs. G. Evans, Mrs. J. Baldry, O. Vogaad, A. McFadden, Mrs. J. M. S. Bailey, Mrs. Jorgensen, Mrs. M. White, Mrs. Shinn, Mrs. R. Thacker, Mrs. R. Dubeau, Mrs. G. McKay, Mrs. G. Pavey, Mrs. Morton, M. Damack, Mrs. Beaton, Sr., T. Johnson, Mrs. W. Smith, Mrs. F. Congram, C. Newham, J. H. Bolton, F. Jones, J. B., F. S. Kellet, B. Teater, A. Klemm, Mrs. J. Skidmore, Mrs. J. Fulton, Mrs. B. Johnson, Mrs. L. Shinn, Mrs. Anderson, Mrs. P. Henderson, Mrs. T. Balmer, Mrs. W. Thacker, H. S. H., Mrs. Nielsen, H. E. Jensen, H. M. Sangster, Mrs. Peterson, Mrs. G. Martin, Mrs. Joe Hitchcock, Mrs. A. Ballantyne, Mrs. Bert VanWert, Mrs. Learmonth, Mrs. N. Luna, Mrs. J. R. Mackenzie, Mrs. R. Stroebel, Mrs. D. Burke, Mrs. C. Bergeron, Mrs. D. Dacre, Mrs. T. Myneault, Mrs. Hargrave, Mrs. Skidmore, Sr. Friend, Mrs. J. Pedersa, Sr. Mrs. J. Podetz, Mr. J. Soukup Sr.

The above donations sum in all to \$56.40

The local Brick Companies and the Dominion Glass Co. are donating the materials with which the Memorial is to be built. All donations, however large or small will be heartily welcome. The following are on the War Memorial Committee: Ellen Hope, chairman; Gene Mallard, Hilda Humphrey, Esther Roxin, Dolores Buchholz, Ruberta Shaw and Norma Osgood.

Miss Thacker spent a few days in Calgary last week.

Hay crops in almost parts of the province are much more abundant this year than usual.

Rev. H. S. Hannett is at present spending a short vacation at Banff.

Mrs. Kaja Madsen who has been working in Stathurst for the past few months is enjoying a brief holiday here with her parents Mr. and Mrs. J. Madsen.

## UNITY MEETING

A meeting of all those desirous of seeing a non-partisan government elected in Alberta at the next provincial election will occur in the Town Hall, Tuesday evening, August 16th, at 8 p. m. The Unity movement requires no renunciation of one's allegiance to any other party except the present incumbent one. You agree to give your support to the federal policies and whether or not previously you have believed it proper to let the present government try to install Social Credit.

The organization in each riding will be controlled wholly by its resident members and be free from all outside interference and direction. It is at present in the Medicine Hat—Redcliff riding a large provisional committee and organization is proceeding.

It is aim is not to organize a new party but to meet the present necessity of permitting members of various political faiths to co-operate for the purpose of electing a business government.

If you want to help elect an economical, practical, business government; if you want to avoid individual freedom of contract and business, then you are most cordially invited to attend this meeting.

Remember the time, place and date—Tuesday evening, 8 p. m. Town Hall, August 16th. Redcliff Provisional Committee. Unity League.

Miss Zelma Bamforth is visiting at the home of her brother, Walter, a Lougheed, Alta.

Mr. Vogel has returned from Winnipeg, and his friends will be glad to know he is much improved in health.

## Local Young Men Married Last We

Walker—Ames

A quiet wedding took place in Medicine Hat, August 6th, when Miss Gertrude Aileen Ames of Tilley, formerly of Wilberforce, Ont., became the bride of Fred G. Walker, elder son of Mr. and Mrs. Fred Walker, of Box Springs district.

The Rev. J. W. Balsebridge officiating. The bride was attended by Miss Harriet Walker, while Jack Walker supported the groom. The young couple will make their home in Tilley.

Kitchen—Peran

In Calgary, on the 1st of August, Mr. George Kitchen youngest son of Mr. and Mrs. John Kitchen of Redcliff, was married to Miss Velma A. Peran daughter of Mr. and Mrs. Wm. Peran of Calgary.

Mr. and Mrs. Henry Kitchen were present at the wedding.

After a short honeymoon the happy couple have arrived in Redcliff where they will reside for a time.

Born—On Wednesday, August 3rd, 1938 in Medicine Hat Maternity Hospital, to Fr. and Mrs. Frank Bodner, a son.

Prime Minister, MacKenzie King, has now passed 19 years as leader of the Liberal party in the Dominion Parliament.

All citizens are requested to refrain from watering gardens until the swimming pool is filled for the big opening event on Friday evening.

The Shetland pony which Star Leuning has had for some time,

## Redcliff Community Swimming Pool Sport

Swimming Races, August 12th. At 6.30 p.m.

Boys, 7 yrs. & under, across pool. Boys, 7 and under, across pool. Boys, 8 & 9 yrs., across pool twice.

Girls, 8 & 9 years, across the pool twice.

Boys, 10 & 11 years, the length of the pool.

Girls, 10 & 11 years, length of the pool.

Boys, 12 & 13 years, the length of the pool twice.

Girls, 12 & 13 years, the length of the pool twice.

Boys, 14 & 15 years, the length of the pool twice.

Girls, 14 & 15 years, the length of the pool twice.

Boys, 16 & over, 3 times the length of the pool. (open)

Girls, 16 & over, 3 times the length of the pool. (open)

Boys & Girls under 12 years

Boys & Girls, 12 to 15 years inclusive.

Senior Boys, 16 years & over.

Senior Girls, 16 years & over.

Anyone wishing to enter any of the above events is requested to advise any of the Committee Members, Messrs. H. Leppard, G. Davies, F. Pearson, E. Martin, W. Swanson, N. Luna; not later than 12 noon Friday, August 12.

took the horse disease and did last weekend it is supposed to have encephalomyelitis.

Mr. and Mrs. A. R. Ballantyne and George returned Monday morning after a fortnight's holiday at the Coast.

Mrs. Joe Smith of Drumheller is at present visiting here with her daughter Mrs. H. M. Sangster and Mr. Sangster.

## New Swimming Pool for Opening Friday Evening

Program of Sports In The Pool And On The Grounds

During the past week considerable improvement has been made on the grounds surrounding the new swimming pool and every thing is in good shape for the opening on Friday evening. Electric lights will illuminate the scene and there will be booths of all kinds for sports and refreshments.

Everyone from town and the surrounding district should avail themselves of this opportunity to have a wonderful evening of fun and at the same time assist in so worthy a cause.

Your committee has done a fine job so far and have spared neither time nor trouble to bring this enterprise to a happy consummation. But additional funds are needed in order that you shall have one of the best swimming pools and most attractive in the province. So be there in full force, Friday evening and back up your committee to the utmost of your ability.

## Afternoon S'ower for A Local New Bride

Pretty Decorated Basket Filled With Party Gifts

Mrs. N. Willis and Mrs. H. Robinson were joint hostesses at a joyous tea party shower in honor of Mrs. George Kitchen at the home of Mrs. Willis on Monday afternoon. Cards were enjoyed for the first hour. Mrs. R. Cann and Mrs. Harold Turner were the first and consolation prizes respectively. During the afternoon a prettily decorated basket filled with useful gifts was presented to the new bride.

C. McMillan and Mrs. F. H. assisted the hostesses in serving dainty refreshments.

## Should Be Careful On Local Highway

Lack of Rain Causes Dust And Watch For Approaches

Owners of cars should be very careful about speed when passing cars on the highway between here and Medicine Hat.

Mount D. Police are inspecting the highway frequently and recent motor cars were fined for passing cars at high speed.

There are more cars passing on this highway than any other part of Alberta and as lack of rains causes high dust, careful should be taken in passing, as automobile cars can often be seen in time.

## "Away To The Canadian Rockies"

It is the latest literature in the latest Brinkley "Away" book—"Away To The Canadian Rockies and British Columbia"—by Gordon Brinkley, with illustrations by his artistic nephew, Norman Brinkley. Devoted to Western Canada by the Trail Riders of the Canadian Rockies, the "Travelling Brinkleys" spent an entire summer in the pursuit of happiness—and a note and illustrations for an edition to the popular series of "Away" books.

In her happy, laid-out, Gordon Brinkley the writer tells of her visit to Calgary to see the

another vivid countryside and excellent fishing in the Vancouver Island salmon runs.

The two adventure-loving Americans have a large following of readers who will see the Canadian West through their eyes, attracted by the charming drawings by Mr. Brinkley, the subtle and readable text by Mrs. Brinkley, and the definite practical information they incorporate in their book for those who would follow in their footsteps.

The pictures above show Mr. and Mrs. Brinkley (photo by Peter Whelan) and some of the Canadian Rockies scenery they like best.

### An Educational Need

"The strength of a nation depends to an incalculable extent upon its educational facilities."

A whole volume—say, many volumes—of wisdom and truth are couched within the foregoing sentence, an extract from a brief submitted to the Rowell Commission on Dominion-provincial relations by two professors of the University of Toronto on behalf of the student body of the nation.

The purpose of the brief was to present to the Commission claims of students for the establishment of State scholarships to permit entry to the universities of the country of many who could never afford the opportunity which these institutions yield for broadening the mind and for training for leadership but who, otherwise, are well qualified.

The request for the establishment of such scholarships is based, not so much on the need for training minds which might subsequently be expected to be capable of contributing to technological development, but rather to ensure training of experts in the field of the social sciences, a sphere of activity in which, it is pointed out, comparatively little research work has been undertaken in Canada and for which no provision has yet been made in the programmes of the National Research Council.

Information supplied the Commission shows that in this respect Canada lags far behind the other Dominions as well as other leading countries outside the Commonwealth; that in this country there is no provision for State maintenance scholarships and that the number of awards from private sources is relatively small.

#### West to the Coast

Moreover, data and statistics contained in the brief demonstrate conclusively that in the matter of scholarships available from private sources the western provinces are discriminated against to an extraordinary but quite understandable degree. For, to the west of the 104th meridian scholarships available annually in this Dominion having an aggregate value of \$108,146, the Province of Ontario receives 388 with an aggregate value of \$70,000, leaving less than half the amount to be distributed in 308 awards in the remaining eight provinces.

As a result some of the brightest minds are directed to the eastern institutions of learning and, again to quote the brief, "this is the worst deprived of the very men who might be expected to contribute most to a solution of her pressing economic, social and political problems."

Because of this situation and because of the inability of the provinces, and particularly the western provinces, to finance scholarships to anywhere like an adequate degree, it is suggested that Federal aid be sought to enable the provinces to finance State scholarships and thus provide at least the means to ensure the education of those who show greatest promise in the field where the west urgently needs assistance—the cultivation of minds capable and fully equipped to solve problems of great magnitude.

#### Not The Entrance Key

It might be urged in opposition to such a plan that already too many students are being turned out of western universities for whom apparently there is no place in the commercial and economic life of the country under present conditions, but this can be at least partially attributed to the fact that brilliance and ability do not furnish the open sesame to the university classroom.

In too many instances debts in the university classrooms are occupied by students who are sufficiently apt to escape through entrance and subsequent tests with a minimum of effort and whose parents furnish the wherewithal simply because it is the thing to do; because a university degree is regarded as a hall mark of class distinction, or because it is believed that social or business contacts made there will be of some assistance in later years.

On the other hand many who are mentally equipped to a far greater degree and who could derive a great deal more benefit from a university education are unable to do so because of family poverty or because of their own inability to finance their way through college. Thus there is a real loss not only to the individual and the family but to the community and perhaps the nation. Scholarships, such as those proposed to the Rowell Commission would, to some extent at least, remedy this condition.

#### Of Further Importance

There is a further thought worthy of consideration when the establishment of state scholarships is under advisement. When it is remembered that the universities are expected to turn out men and women who will, and should be, leaders of opinion in their respective communities and provinces, the necessity of affording every opportunity to youth of brilliant mind, capable of clear and logical thinking, to pursue their studies to a conclusion, is highly important in a country which is only now shaping her future destiny, and in a day when generation upon generation of institutions and forms of government are threatened by new and untold political and social disorders.

With a large number of people too inert to do their own thinking and willing to be stampeded in any direction at the behest of glib oratory, it is highly important that encouragement and opportunity be given to talent wherever it may be found and to give the best brain full opportunity for development in order that leadership in the future may be founded upon experience, logic and sound common sense, if the country is to make progress and the future to be assured.

#### Cost Of A Dukedom

It cost \$250 (\$1,750) to give the Duke of Windsor his dukedom. Supplementary to that, have the white collar men an item for stamp duties on "royal" warrants, letters patent and the docket creating the Dukedom of Windsor?

People are reading fewer, but better books than they used to, says a librarian. If they read only the better books they are certainly reading fewer.

Silkworms outgrow their skins four times during their rapid growth period.

"What's new on the screen?" asks a movie gossip writer. "Piss, we guess."

Skates shed their eyelids when they shed their skins. 2303

### Canyon Under The Pacific

Is Believed To Contain All Varieties Of Minerals Known

The discovery of phosphorus 3,000 feet under water on a Pacific ocean canyon opens a new world for fortune hunters. The finding was made Thursday at the Scripps Institution of Oceanography by Dr. P. F. Shepard, geologist of the University of Illinois.

The fertilizer rock was dredged from the upper walls of the submarine canyon 50 miles off the shore of California. The phosphate nature of the rock, he said, was determined by K. O. Emery, who is making a study of the rocks collected from the canyon.

"This canyon is one of scores discovered in ocean bottoms by geologists in the last two years. The canyons are in all oceans. They are an exception, however, in that the sections are not muddy. Their walls are rocky and the rocks are of all kinds, like those on land."

There is reason to believe that the submerged walls contain all the varieties of minerals known. Some of the canyons are as large as the Grand Canyon of the Colorado River. The phosphate rock canyon is V-shaped. The bottom line half a mile long. Its sides are from 1,300 to 2,000 feet high. Dr. Shepard's dredge took the samples from a depth of 20 miles, indicating that the deposit is probably extensive and rich.

The phosphate was identified as of the Miocene Age. That age ended about 7,000,000 years ago. It is possible, Dr. P. F. Shepard said, that phosphate may be forming now in the submarine canyon. From this same area, where it was found, a broom of 20 miles long, indicating that the deposit is probably extensive and rich.

The geological prospectors seek to learn the origin of the great chasms in ocean bottoms. They are among the most mystifying discoveries ever made. Their walls are of all kinds, like to soft shale. Some of the rocks are volcanic, but most of them are sedimentary, which means that they are formed by the weight of huge deposits of earth.

### To Guard Switzerland

Little Country Has Devoted Unusual Means For Its Defense

Hundreds of miles, round metal manhole covers dot the highways and byroads of Switzerland near the Compendium's frontier with Germany. They're a key part of Switzerland's national defense system.

Beside the highways lie piles of metal rails. Most travelers who see them think they've been left by the roadside to run by carless railroad wipers. Investigation, however, may show one end of the rails has been ground into a sharp point. When the rails are in place, they form a highway, so when he reaches his wife in a convenient place where his wife can pick him up.

On his first solo night, fortified only by the lessons he exchanged for chores at the airport, Schapansky's wife with a "mood" for motor and crashed. Schapansky pulled him from the cockpit landing.

### Religious Broadcasts

Sunday Afternoon Sermons May Be Started In October

Although the newly-created national advisory council on the broadcasting of religious services includes representatives of the five largest Canadian churches, smaller religious organizations will not be neglected in religious broadcasts, Major Gladstone Murray, general manager of the Canadian Broadcasting Corporation, indicated.

Bible sermons, including the Selections from the Bible, the Christ, Christian Science and Latter Day Saints will be given opportunist to share in the broadcast.

The national council is composed of the following: Rev. Carl V. Farmer, Baptist; Rev. Henry B. Brown, Methodist; Rev. J. B. Thompson and Rev. Joseph Wason, Presbyterian; Monsignor M. Brennan and Charles LaPlante, Roman Catholic; Rev. J. E. Mulholland and William H. Orr, United Church. All are active in their churches.

Mr. Ward is chairman and Mr. Mulholland secretary of the council. It is proposed to provide two national half-hour religious broadcasts Sunday afternoons and regular half-hour regional broadcasts of religious services Sunday mornings.

The morning broadcasts will not be started until January at the earliest. The Sunday broadcasts will likely begin in October.

The corporation has set aside one half-hour, 12:30 to 1 p.m. (M.T.S.), and the half-hour 3:00 to 3:30 p.m. (M.T.S.) for the new broadcasts. The first half-hour has been allotted by the advisory council to the Roman Catholic and the second to the Protestant churches starting as follows: Oct. 4, Baptist; Oct. 4, Church of England; Oct. 16, Presbyterian; Oct. 23, United Church.

### Good News For Neighbors

Amateur Pilot Forbidden To Fly His Home-Made Plane

Herman Schapansky, Weatherford, Okla. the better and egg farmer who pilots his home-made plane to one-point landings on the nose—has been grounded.

He was ordered to stay out of the air because he has no motor license. Neighbor farmers, accustomed to scurrying to storm cellars when they hear the whine of Schapansky's motor, breathed a sigh of relief.

Schapansky, who soloed and crashed the first time in a junked Jernigan plane with a "mood" for motor and crashed. Schapansky pulled him from the cockpit landing.

**Only Firestone TIRES ARE GUM-DIPPED FOR EXTRA STRENGTH**

**EVERY FIBRE INSULATED WITH RUBBER**

**GUM-DIPPING** is a patented Firestone process not used in any other tire. With it every hundred pounds of cord fabric absorbs eight pounds of rubber and, as a result, every fibre, every cord and every ply in a Firestone tire is coated and insulated with pure rubber to counteract internal heat and friction—the greatest enemy of tire life.

Due to this extra process, Firestone Gum-Dipped cords have 88% longer flexing life. Yet you do not pay one cent more for this extra value. And you also get 2 Extra Cord Piles under the tread and the Firestone Scientifically Designed Tread.

See the nearest Firestone Dealer today!

### SELECTED RECIPES

**SALMON MOLD**

- 1 package Lemon Jell-O
- 2 pint hot water
- 3 tablespoons vinegar
- 1 teaspoon salt
- 1 teaspoon drained horse-radish
- 1 cup flaked salmon
- 1 cup cooked peas, fresh or canned
- 1 cup cooked diced carrots

1/2 cup Jell-O in hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4 teaspoon salt. Pour small amount of Jell-O in bottom of loaf pan. Chill until firm. Chill remaining Jell-O until slightly thickened. Add 1/4 teaspoon salt and horse-radish to salmon and vegetables and mix very lightly. When remaining Jell-O is hot water. Add vinegar and 1/4

## Devil's Island Abolished

Fight Against French Penal Colony Has Been Successful

Novelist and scenario writers lost one of their most picturesque settings by decree of the French government. Devil's Island, which is the popular name applied to all the penal colonies in French-Guiana, will receive no more recruits. This step will receive the sanction of humanitarians everywhere, for the French penal system was a remnant of a bygone age that had no place in the twentieth century.

A year ago Marc Rucart, minister of justice, announced that no more convicts would be sent to the colony which he called "a blot on the honor of France." Now Premier Daladier, extending his decree, has amended the penal code to conform. In the future, criminals who would have gone to Guiana will be sentenced to hard labor in French prisons or to solitary confinement.

Convicts already in the colony will serve out their time. Many of them cannot go back home under the terms of their sentences. Most of the "settlers" in Guiana are freed convicts under a ban against their return to France.

One commendable motive for the abolition was the failure of the system to train men for return to normal life after they had been in the colony. In this respect it was like the old prison system employed by England when convicts were sent to Australia or like the Indian system under which labor was largely confined under the chains.

Thus the colony was an unwanted farm when the late Col. Alfred Dreyfus was unjustly sentenced there. He will live only in the memories of escaped convicts. It is a tribute to the Salvation Army that its organization in Guiana has fought to abolish this deplorable system—Cleveland Plain Dealer.

## For Defence Of Eire

People Know They Would Have To Depend On Their Own Arms

The last British soldiers have marched off Southern Irish soil to the aid of Irish people. They went quietly. There were no triumphant cheers by Irishmen along the route to the wharf. Neither were there any jeering jeers. There is peace in Ireland today. A new spirit prevails. Irish troops now occupy the few guarding Cork harbor in the west.

Theoretically, Eire will be responsible for her own defence. But the several other factors in the settlement it is more a paper right than an actual one. And the Irish know it. They have agreed to forbid Irish soil being occupied by foreign troops as a base from which to attack the United Kingdom. In other words, they transmit the leading of a foreign army; they will resist the invasion of their own sovereign rights. The full force of that is that if the free but poorly armed country of Eire were to be attacked by another nation, either that it should come another Eilatopia or an Austria, or to be a jumping-off place from which to raid the United Kingdom, the Government will try on Great Britain to help in their defence with all the might at her command. The British must interpret Great Britain will do so.

That is exactly the position in relation to Canada, too. We are an autonomous country within the British Commonwealth and theoretically we claim to be responsible for our own defence when even those who own the claim know that in the main we would have to depend on the British Navy and air forces. Eire claims to have full self-government, responsible for her own defence, knowing full well that in the main she would have to depend on the British Navy and air forces. That is just another illustration of the weird and wonderful way in which this heterogeneous Empire is run.—St. Thomas Times-Journal.

## A King's Taste

Egyptian Ruler Chose Cake, Cheese And Lemonade For Lunch

A member of the Egyptian Chamber of Deputies met King Farouk and his young wife in Cairo. The royal couple were out driving, and accepted the statesman's invitation to dine under the condition that Farouk should choose the menu. He selected cake, cheese and lemonade.

Makes Him More Valuable

Once Nip was just a Bengali Puranian but now he is the dog with the gold tooth; and all Bengalis know it. Nip got the toothache his master, who is a Bengali, extracted the offender and put in the gold one. There was no fuss and no anesthetics.

Milk does not lose any of its nutritive value when it becomes sour.

## Circling The Earth

Flying The Northern Route Cuts Down The Distance

Little boys who may read that Howard Hughes went around the earth in something less than 15,000 miles may want to know how about those 25,000 miles of circumference that Teacher made them memorize. Somebody will have to tell them that 25,000 miles is the size of the globe around the earth at the Equator, where belts are normally worn. Phileas Fogg, who went around the world in 80 days, skirted the Equator part of the way. And the hapless Amelia Earhart set out deliberately to parallel the Equator, as close as she could.

To go around in 11,000 miles, as Howard Hughes or the late Wiley Post, one must lay a course approximately two-thirds of the way up from the earth's midriff at the Equator to its topknot at the North Pole.

Round-the-world flight, championships should be awarded by parallels of latitude. Howard Hughes, for example, has done the greater part of his trip between 50 and 60 degrees north latitude, with a slight down to New York's approximate 40 degrees starting and returning. Striking an average, Hughes might be called the Fifty-Fifty Parallel champion.

He or somebody else might do the circle round the globe ten degrees farther south, where the distance would be a couple of thousand miles longer, for the Forty-Fifty Parallel grows.

So we might keep on to the Thirty-Fifty Parallel or Hattaras-Mediterranean Champlain-Champlain. Twenty-five or Thropic or Cancer Championship, until we come to the Equator or Arctic Circle Championship with its full 25,000 miles.

## New Regulations

Lutheran Church In Cleveland Has Strict Rules For Weddings

Paul's Lutheran Church in Cleveland has banned the conventional kiss at the altar after wedding ceremonies.

Dr. Arthur Carl Piepkorn, resident pastor, announced that the church also had adopted these regulations:

No rice or confetti shall be thrown at the door of the church; Wedding rehearsal shall be as few and as brief as possible; And "Secular and operatic music" such as the familiar Wedding March from "Lohengrin," "I Love You Truly," "O, Promise Me," "The Rose Tree" and "The Rose Tree" shall be replaced by ecclesiastical wedding music or the choral nuptial music of the ancient church.

Dr. Piepkorn said the Lutheran Church has long advocated such rules.

## Branding Swans

Centuries-Old Custom Is Still Maintained In England

A fleet of six swift rowboats started up the Thames from London on the annual, centuries-old expedition to brand the year's crop of young swans.

Manned by the King's swankeeper and the marksmen who do the work of branding, the little fleet moved along leafy banks into quiet backwaters where the swans nest among the reeds.

Ownership of the birds on the Thames is a three-cornered partnership. The King's share has not been marked in recent centuries. But the other swans, which belong to the two city liveries companies, the victuallers and the dyers, must be branded.

The swans put up a stiff fight in the water, and sometimes the boats upset the boats.

## Houses For Birds

As time goes on, more and more birds will come to accept man's offerings in the way of homes. The approach of civilization gradually cuts down the natural locations of the nests of birds, and they come to look more favorably on man-built houses.

Man's ingenuity is dandy, but how do you suppose China's feeling now, recalling the fact that several centuries ago it invented gunpowder?

An American claimant to be able to chase cobras with a saxophone, suffering much.

It's about time they equipped the dove of peace with a gas mask.

## FIFTY YEARS OF PROGRESS IN LOCOMOTIVES

An interesting picture marking fifty years in the life of the famous "Flying Scotsman" trains which daily travel the length of England to Scotland. On the left is the fifty-year-old "Flying Scotsman," right, which has just been put into service.

## Revolver Competition

Calgary City Police Squad Capture Highest Place

A Calgary city police squad captured the 1933 Dominion marksmen shooting revolver competition, scoring 1,113 out of 1,500, while a team of provincial police from Victoria, B.C., took top honors in the tournament with a 1,360 out of 1,500.

Runners-up and scores in the senior competition were five-man teams from Victoria, 1,413; Montreal, 1,396; Toronto, 1,396; Winnipeg, 1,396; and Saskatoon, 1,386. In the novice contest, Toronto police finished second with 1,343.

## Officially Recognized

British Plane And British Aviator Road World Height Record

A British aviator and a British airplane now officially hold the world record for height. This now stands at 53,357 feet (16,449 metres) and was established on June 30, 1937, by Flight-Lieutenant M. T. Adam, in a Bristol 128A machine. The record has been given official recognition by the International Aeronautical Federation, Flight-Lieutenant Adam has since been awarded the Air Force Cross and has received the congratulations of the Air Council of Great Britain.

## Dishful Admiration

"It seems that you were entirely to blame," said the magistrate, sternly. "You made an unprovoked attack on Mrs. Brown while she was asleep with your baby. What have you to say for yourself?"

"Admitting my baby, was she?" commented the woman in the dock. "She comes up to the pram and she says, 'My! what a beauty! And how long have you been keeping a mistress?'"

## Fully Aware Of Risk

Foreign Owners Of Boats Take Chances In War Zone

We will defend with all our power the right of British ships to pass free and securely along the pathways of the high seas, yet we cannot undertake to guide and guard those ships in and out of ports within the area of war. They go there well knowing the risks and—as far as the foreign owners are concerned—well calculating the profits. For a course of "thunderbolt" bottoms are not always, nor often, British except in their superstructure. They get the kind of damage at the machine, and some are owned by Greeks.—London Daily Express.

## Intrepid Airmen

Makes Successful Flight Across Canada In A 1929 Model Plane

Douglas P. Corrigan, a Los Angeles air pilot, is vacationing in New York after a non-stop transcontinental flight which he completed in a 1929 model Curtiss Robin plane valued at about \$800.

Corrigan headed late one Saturday night at Roosevelt Field, Long Island. Although he carried no parachutes and his plane is not equipped with either radio or instruments for blind flying, the intrepid aviator brought his plane to land with less than five gallons of gasoline left out of his starting load of 250 gallons.

## Making Good Living

In a home-made 40-foot cutter which it took them a year to build, three Chas. Hughes, Alan and Bill Haldane, Melbourne, Australia, are earning their living by hooking sharks, the clean, white, bountiful fish of which is a recent popular addition to the city's fish diet. They are rejecting over a record day's fishing they have just done—50 boats worth \$200.

## BRITISH BOMBERS IN FLIGHT

British bombers, looking like huge bats, fly down a routine flight. They are the fastest single-engine bombing planes now in use in large numbers in the Royal Air Force, and have a speed of approximately 360 miles an hour. Two guns are carried, one fixed in the starboard wing, and the other movable in the rear cockpit.

## Forgotten Ports

Britain May Divers Shipping From East To West Coast

Announcement by Leslie Hargib, British minister of transport, that consideration was being given by the government to diversion of shipping from the east to the west coast, in time of war, has focused attention on Great Britain's "forgotten" ports. Of the places that get short fleets of men of war and observation to sea during the middle ages, some are now picturesque fishing villages, drawing more profit from tourists than their ships. Some accommodate only ferries and yachts. Others have fallen into near decay.

The minister's statement has aroused hopes in these communities that their lost importance and prestige will be restored to a position where they will form a vital part of Britain's defense bulwark.

The harbors brought back into the limelight do the coast from Plymouth, round the Cornish shoreline, by the River Exe to Weymouth and north to the Clyde.

Pewee, Cornwall's famous little harbor of new iron ore, in the local China clay, sent 40 ships to the siege of Chale in the reign of Edward III. Harbors of differing size.

Portsmouth, impressive home of the modern navy, was put in the forefront of the war as a base of naval power by the port of Lymington, which now berths only yachts, ferries and a few small coastal craft.

Among the "lost" harbors of the south coast which owe their existence to the vagaries of differing tides, Wicheles, New Romney and Sandwich were once proud members of the Channel Fleet, a strong barrier to the invader. Their lord was once bound to provide 57 ships for the fleet and manned, for the king's service.

## Interesting Statistics

Given In Last Yearbook Published By League Of Nations

The League of Nations has come out with statistical evidence which gives the lie to the assertion that the war was a disaster.

The 1936 edition of the League's statistical yearbook showed that the losses of the war were less than the losses of the Crimean, Napoleonic or Cape Town wars longer than the last. And as it is a statistical yearbook, it is longwinded, meaning nothing, the yearbook produced statistics from all over the world to show that women are stronger from birth, a smaller proportion of girls babies dying in the first year of life than male babies.

As some consolation to men, the yearbook showed that their average length of life was longer than the average length of life of women. Increasing throughout the world. Thus in the United States 50-day the average boy expects to reach the age of 60.72 years, whereas a boy born in 1929 could expect a life span of only 59 years.

The yearbook brought out the world's population which it estimated at 2,115,000,000. In the United States, for instance, 11.4 per cent of the population in 1910 was less than five years old and only 6.7 per cent over 60 years. Now, only 9.3 per cent is under five years while 8.5 is over 60. The same trend was noticed in "old countries" like France, England and Germany.

## Accustomed To Interviews

Reporters Find Ready Big Men Are Always Available

Experience has taught most reporters that the "big names" are usually "big" men and will chat with the reporter in an offhand, informal way. The "big" men are assured of their dignity and do not have to make an effort to maintain it. They are accustomed to being interviewed and do not regard it as an awkward situation. They know, too, that the reporter has interviewed other celebrities and does not regard it as an awkward situation.

## The Fur Coat

A distinguished man from Boston took a Western trip for his vacation. Arriving around Salt Lake City one day, he made the acquaintance of a little Mormon girl.

"The fur coat," said he to her. "I suppose you do not know where Boston is?"

"Oh, yes, I do," answered the little girl eagerly. "Our Sunday school has a missionary there."

## Unclaimed Property

Secretary Oliver Phillips of Vancouver General Hospital has accumulated \$1,000 in the past 20 years from sale of unclaimed property left by patients and has a rumour of efforts to have the money paid to him in full called for anything received over and above the patient's bill, from sale of effects.

## "JUST ACROSS THE STREET..."

Yes...they're using Gyproc in the new buildings—all the interior walls and ceilings. The contractor knows that more and more people are using Gyproc as they learn about its many advantages; that it's made from fire-proof mineral gypsum; that it is permanent. Gyproc is as easy to cut and nail as lumber. Saves time and expense in construction, with no mess or bother. Yes, I asked him about that—those joints are invisible—the finished walls and ceilings are absolutely smooth—perfect for any type of decorating. A free booklet tells all about Gyproc for new buildings. Write us to-day.

### CHAPTER I

Jack Hammond reflected, as he walked up from the wharf, that rain was Prince Rupert's most beautiful crop.

He made the climb from the water front and out across the little terrace park, where lotus poles stood gleaming with moisture and grotesquely lonely. Everything dripped in Prince Rupert this morning, even the discolored, stuffed Kodiak bear in front of Al Monson's trading store.

At last Hammond halted abruptly, looking over the wooden fence of a back yard. Howls and whines had centred his attention.

"What are you trying to do with that dog?" he asked. A man halted in his effort to kick a harassed mongrel into progress along a muddy space before a makeshift sleigh weighted with stores.

"Going to make a sled dog out of him."

"That boss? He hasn't got the weight for it."

"Oh, he's pretty strong." The man grinned. "Say, they'll be buying anything where this dog goes!"

"Where's that?"

"Over the hills there in B.C., the man said, 'up the Caribou river, somewhere around the valley of the Hainan. Haven't you heard about it?"

Hammond's features had become strangely pensive.

"What's going on?"

"Where've you been that you haven't read the papers?"

"On the Alaskan, coming up from Vancouver."

The dog trainer stared.

"The ship that got in this morning?" he asked. "And you didn't know about it? Then you must have been deaf, dumb and blind. There were plenty of others who came on that boat—just because of it."

"Because of what?" Jack Hammond's hands, where they gripped the fence, were strangely discolored.

"Well, if you ain't kidding—the gold rush. Two fellows found placer gold up there. A couple of guys named McKenna and his blind partner, Jack Hammond."

"Oh, I see," said Hammond jerkily.

"Well, I figured you might play the fool if you ever got to B.C. and met that girl, but I never thought you'd be so dumb as to let her lead you. Why didn't you wait until the time again before you got drunk? There'd be a chance for you in the Yukon country before breakfast. I'm hitting you up here with short supplies to get in here and protect your interests before the rush starts. See my lawyer, and you can claim an and make it in good shape. Then come up with supplies as quick as you can."

Hammond turned to the walling boy beside him and ordered his bags taken to his room. Then he headed for the door; again on the street, he started toward a three-story building a few blocks away.

His course was a broken one. Townspeople he knew halted him to question the accuracy of newspaper stories which Jack Hammond had not seen. His easiness only nettled them.

"What if you haven't seen the newspapers?" they asked. "You made the discovery. The Vancouver papers have been full of it. You know all about it—what's the use of trying to keep it a secret?"

Seen a crowd had gathered about him. Hammond fenced frantically.

A big man, with a faint streak of red in his voice, poked a hand-skinned, brewed-out face close to that of Hammond.

"My name, Olson," he announced. "I've got a map here—woppon you point out the place to us."

"Hillman's killed at his beach."

"Maybe I'd better," he agreed. Then, as Olson poked the map before him, "Didn't I see you on the boat from Vancouver?"

"Yes, you saw me," said Olson. "And a lot of others."

"Why didn't you come to me? I could have explained all this to you—maybe you wouldn't have been so anxious about getting off the boat."

"You got off, didn't you?" asked the man with the pack on his back.

"That was enough for me," came another voice. Then a short man, red-faced, and with an excited manner, edged forward.

"How about me? I saw the story in a Winnipeg paper and took a place for Jasper Park. Then caught the train up here."

"Oh, and I came from Prince George, cut in another member of the crowd. 'I thought we'd go in from Alaska—around Wrangell."

"Yes," Olson said. "The volunteer trainer showed casually at the house far of his dog. 'Guess they'd figured to keep it quiet, all for themselves, you know. But that Hammond goes down and sniffs everything. It's been a hard stuck on ever since he was a kid. Then he got on a big bait lamp and walked everything. It's been all the papers, I guess. Look a romance."

"Yes, quite," said Hammond thinly. "So everybody's figuring on going up there, eh?"

"Everybody and his brother. That's why I thought I'd train the dog. It's been in a Winnipeg paper and took a place for Jasper Park. Then caught the train up here."

"Oh, and I came from Prince George, cut in another member of the crowd. 'I thought we'd go in from Alaska—around Wrangell."

"Yes," Olson said. "The volunteer trainer showed casually at the house far of his dog. 'Guess they'd figured to keep it quiet, all for themselves, you know. ## For Your Preserving

Use It This Year

Wrangell by boat and up the Stikine River.

"You can't go up the Stikine this time of year," an outsider argued. "It's as well to try to walk on ice."

"Will you let me explain the set-up?" Hammond insisted. "If you go in by way of the Stikine, you've got to make nearly 200 miles and double back. You can't turn off that river runs through canyons almost to Telegraph Creek—way past the discovery. It's next to impossible to cover the Stikine route on the ice."

"That's make that river in the summer time," someone insisted.

"Certainly," paddle wheelers. But in the summer the spring break up in that country isn't due for months. Think that over."

Then Jack Hammond's stout silent, listening to the jangle of words about him. Men were arguing about when or not to go up the Stikine, as if any inaccuracy were a personal affront. All in an instant, the thought of gold had torn reason from the men.

Then Olson poked the map before him and said the question: (To Be Continued)

## Gossip Law in Papua

Admon To Arrest Offenders Did Not Get Very Far

Approves of Quebec's padlock law it is interesting to learn that similar ideas have gained acceptance among the natives of Papua in the South Pacific ocean, says the Toronto Star.

The natives have their own officers who act under the tutelage of British resident magistrates. A law was adopted which made it an offence for anyone to spread slanderous reports about their fellows. The councilors thought that perhaps they could improve upon that law, which only operates after the fact.

Their bright idea was to pass a law providing that "if two or more persons are gossiping together, they shall be immediately arrested and put in jail for two months."

"But," said the natives, "we have prevented rather than punished."

Whether it was the radio or some village news carrier across the country by the word that infected the natives with such Pacific ideas is a matter of speculation. The incident shows how careful civilized beings should be in these days of their conduct; it is a worthy example for less civilized peoples. In this particular case the British magistrates exercised their power of veto and Papua's magistrates will not be at liberty to meet and exchange gossip.

## New Railway Rules

Transport Act Enabling Railways To Make Agreed Charges

Provisions of the Transport Act enabling railways to make agreed charges with customers will come into effect probably early in September. The act was passed at last session of parliament but certain portions only came into effect when the railway companies were particularly anxious, when the bill was passed, to get the act into effect.

The railway companies were particularly anxious, when the bill was passed, to get the act into effect. The act was passed at last session of parliament but certain portions only came into effect when the railway companies were particularly anxious, when the bill was passed, to get the act into effect.

## Imperial Policy

Development Of The Dominions To Status Of First-Class Powers

One of the main objectives of Imperial policy ought to be "encouragement of the gradual development of the Dominions until they attain the status of first-class powers, having decided influence in the affairs of mankind." Colonial Secretary Malcolm MacDonald declared at Manchester.

Speaking at a luncheon of the Manchester Chamber of Commerce, Mr. MacDonald said that if "industrial development of the Dominions is wisely guided, Great Britain is not going to be the loser."

"What would develop in the Dominions is simpler forms of manufacture." As people went into the Commonwealth countries and engaged in production, they would make the Dominions a far larger market for Great Britain in the manufacture of more complex products.

He would like to see British and Dominion industrialists get together to work out a plan for complementary industrial production whereby, in the long run, he believed not only the Dominions but also the Mother Country would profit.

"A great constitutional movement is now being carried on in India in accord with the highest traditions of British Imperialist tradition."

He disagreed with the view that the "experiment" had been a fatal one, beginning the complete re-organization of the Empire. He often referred to him that the greatest present danger of mankind was the creation of racial rivalry between East and West.

"It would be the best calamity for civilization, if our day were to break out between East and West. What is wanted is sympathy and understanding between those peoples who inhabit the building of bridges which will prevent that division from taking place. The most important bridge of all is provided by Anglo-Indian friendship in the practical work of the Government."

## Hills Of Water

Exist In Pacific Ocean Mouths Around Hawaiian Islands

Hills of water exist in the Pacific Ocean, according to Howard W. Haskins, the Associated Press science editor, quoting Dr. R. H. Fleming of the Scripps Institution of Oceanography of the University of California.

The greatest hill centres around the Hawaiian Islands. The water there is a mile more than three feet higher than at the Alutian Islands, 2,000 miles south.

This vast hummock is called a gyral. It turns slowly around an enormous top. The northwestern corner of the gyral, which flows past Alaska, crosses from the Orient to Alaska, and then curves to flow southward along the west coast of the United States.

The top of this hill, the surface water around the Hawaiian Islands, is a vast hummock, which flows past Alaska, crosses from the Orient to Alaska, and then curves to flow southward along the west coast of the United States.

## It Happens Sometimes

Automatic Elevator In New York Block Went On Rampage

If you get the creeps in one of these automatic elevators where you push the buttons, you may be entirely unprepared.

Mildred Wilson, 28, a Negro maid, stopped into the store-story apartment house in New York, where she works and pushed the button to go down.

The elevator ran to the first floor, stopped with a bump, and abruptly started up again.

At the sixth floor it stopped and abruptly started down again.

Then it went up again. Then it went up again. Then it went up again.

Then it went up again. Then it went up again. Then it went up again.

Then it went up again. Then it went up again. Then it went up again.

Then it went up again. Then it went up again. Then it went up again.

Then it went up again. Then it went up again. Then it went up again.

Then it went up again. Then it went up again. Then it went up again.

Then it went up again. Then it went up again. Then it went up again.

Then it went up again. Then it went up again. Then it went up again.

## Builds Fortune

Manager Of Aircraft Company Accomplishes Much In Five Years

Frederick Handley Page, 53-year-old, and staunch general manager of the aircraft company he founded, has made himself a new fortune in five years.

Handley Page, Ltd., announced a first dividend of 30 per cent. tax-free for 1937, plus a capital bonus of 50 per cent. These followed an interim dividend of 10 per cent. last year and last December a capital bonus 100 per cent.

Handley Page's new fortune was his realization of the possibilities of the slotted wing device that revolutionized wing spinning when they are stalled.

## Nazi Cultural Program

Adolf Hitler Has No Liking For So-Called Modern Art

Adolf Hitler, who once forewarned painting for politics, opened Germany's 1938 art exhibition with a declaration that democracies were welcome to modern art; he closed it as "cultural Neanderthals" but that Nazi Germany wanted no part of them.

The Führer attacked cubism, futurism and dadaism and lauded the Nazi cultural program. He said that the modern art movement was a Jewish culture movement.

He said that the modern art movement was a Jewish culture movement. He said that the modern art movement was a Jewish culture movement.

He said that the modern art movement was a Jewish culture movement. He said that the modern art movement was a Jewish culture movement.

Miss Kathie Myers left last  
week for Banff to visit friends.

Last week Miss Allenbach was  
a visitor with friends in Medicine  
Hat.

Miss Tiny Brucker, of Brooks,  
is a visitor in town at the home  
of Mr. and Mrs. J. Allenbach.

Miss Marie VanWert is spending  
her vacation with relatives  
in Moosejaw.

Mrs. O. Iween and daughters  
May and Gladys, are at present  
sojourns on Vancouver Island.

Mrs. Art. Fitzhenry and family  
spent several days last week  
holidaying at Elkwater Lake.

Mrs. Holt and her grand-  
daughter, Wilma Pickering, are  
at present enjoying a vacation  
at the Coast.

Mr. and Mrs. H. O. Johnson  
and family were visiting friends  
in Lethbridge and district last  
week.

Miss Mary Harriet and Mary  
Walker, who have been visiting  
with friends in Pipefit for the  
past three weeks, returned to  
home last Saturday night.

Mr. Joe Ollett, who was a resident  
of Redcliff several years  
ago, was in town last week renew-  
ing old friendships. He now  
resides in Edmonton.

There was a heavy fall of rain  
on the Bowell district last Sun-  
day evening and it delayed re-  
cutting of wheat for few days.  
There was very little rain in the  
town that night.

Mr. and Mrs. B. Thacker and  
small daughter, Jean, accompa-  
nied by Mrs. Thacker's mother  
Mrs. Morrison, who have been in  
Calgary for the past five weeks,  
returned to town Monday. Mr.  
Thacker was attending Summer  
School, where he has just com-  
pleted a Course in General Shop.

Information from Ticket Agent

Canadian Pacific

Mrs. Sellhorn has as her house  
guest at present, Miss Ruth Shel-  
don, of Edmonton.

Mrs. Nice and son of Mirror,  
Alberta, are visiting the former's  
parents, Mr. and Mrs. H. Johnson  
for a few weeks.

It is now estimated by a daily  
paper that it will cost \$2,500,000  
for binder twine for the farmers.

Mrs. Fairhurst, Sr., has as her  
guest, her friend Mrs. Forbes  
Drumheller.

Miss Alestra Knudsen, of Irma,  
is the house guest of Miss Carol  
Sellhorn for a couple of weeks.

Miss Eva Lien is visiting with  
relatives in Portland before re-  
turning to Redcliff after expect-  
ing to go as far South as Long Beach.

Mr. and Mrs. Wm. Peron, of  
Calgary, parents of Mrs. George  
Kitchen, spent last Sunday here  
with Mr. and Mrs. J. Kitchen.

The Federal government has  
now established the wheat price  
at 80 cents a bushel for No. 1  
Northern delivered at Fort Wil-  
liam. This price now seem to  
meet with general favor.

Miss Reva Garner, of Raymond,  
was the house guest of Miss  
Annie Batten for the past week.  
Mr. and Mrs. W. Swanson had  
a their guest last week, Miss  
Annie Batten of Medicine Hat.

Six women and one man from  
Georgia who were making a trip  
in a car through Canada, met  
with an accident near Bassano  
last week end. Several of the  
occupants were seriously hurt  
and taken to Bassano hospital.

Mr. Candice Evans sustained a  
painful accident while assisting  
Mr. R. Phillips to repair the roof  
of his house. He fell from the  
roof injured one leg and the arm  
he had badly injured a few  
years ago. Fortunately the  
accident, though painful, is not  
so serious.

The Little Helpers of St. An-  
dross Church, under the leader-  
ship of Mrs. H. Johnson, held  
their annual tea party Thursday  
afternoon. Games were enjoyed  
on the lawn, following which a  
short service was conducted by  
the Vicar in the church. After  
the service the party adjourned  
to the parish hall where tea was  
served by the ladies of the St.  
W. A. There were about 15  
ladies and 25 children present.
